Subject: Letter Of Appreciation.

Dear Sir/ Madam,

We, the signatories below, on behalf of the School Managing Committee, Staff and also the students cordially acknowledge your contribution to the development of our school Computer Science Laboratory. You have provided two Desktop Computer sets for the students of HS section and the students reading Computer Science will gain much benefit utilizing these. For want of sufficient computers, we were failing to offer advantage to our students up to the required standard. However, alumni like you (Who are big minded enough) are coming forward to help their alma mater. Truly speaking, our adjectives fall short when we appreciate your such big mindedness.

We once again acknowledge your contribution (for the sake of the students) with all humility.

Thanking you,

Yours faithfully,

Silvan Kumar

Ramakrishna Math, Dakshineswar

(A branch-centre of Ramakrishna Math, Post Belur Math, Howrah, West Bengal 711202)

Ref. Thanks/Ash

Date: 5 December, 2024

Dear Sri Chakraborty,

At the very outset, we express our deep gratitude to you for coming forward and contributing towards the development of this Ashrama.

The ongoing activities of the Ashrama are progressing smoothly. Our evening classes in the shrine rooms are greatly appreciated by the devotees, and to enhance outreach, some of these classes are made available on the YouTube platform.

On 14th November 2024, Most Revered President Maharaj inaugurated the "Swami Vivekananda Computer Class." This Centre is designed to enable students from the 'Lower Economic Strata' to learn computer skills.

Other activities such as cloth distribution during Durga Puja, Values Education Programmes among students, free distribution of educational items, health camps, etc., are regularly conducted. Our winter relief programme is also ongoing, with 500 blankets and 300 winter jackets being distributed to those in need.

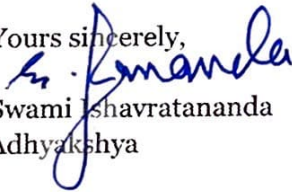

Since the main Ashrama campus has limited space to expand our activities, the Ramakrishna Math, Belur Math, has come forward to acquire a nearby property. We are now working to develop this property to extend our activities, including conducting retreat classes, youth camps, values education programmes, and more.

We are especially obliged to you for extending your support by providing eight CCTV cameras with all their accessories and overseeing their installation. This contribution ensures the safety and security of the Ashrama premises.

We once again extend our heartfelt gratitude for your generous support.

With namaskars and warm regards,

Yours sincerely,

Swami Jhavratananda
Adhyakshya
